Good morning Jennifer,

It was nice to see you on the Land Revitalization call today.

Thank you for your quick response to this email and for the helpful information. I will touch base with Dave about the City of Maquoketa presentation and TBA program.

Sincerely,

Lisa Dunning

Hi Lisa –

I don't immediately know of anything. However, I am including this in my next discussion with Marshalltown, Iowa (we meet at the end of every month). I think they may be ready for a TBA sooner than any other communities I'm working with at the moment. I'll definitely keep you in the loop on that.

Dave Doyle and Mel Pins are doing a little Brownfields 101 type presentation to the City of Maquoketa, Iowa in December. I imagine Dave will mention TBAs as an EPA assistance. And they may have some sites in mind by that point or beginning in the new year. I know they're working on an inventory, of sorts. But again, nothing that I'm immediately aware of.

I think that sounds like a solid plan for talking with the states. Hopefully that will generate some discussion and sites!

Talk soon  
jen

**Subject:** Upcoming Targeted Brownfields Assessments?

Good afternoon Jennifer and Scott,

I realize we spoke not too long ago but I am reaching out to double check. Are you aware of any Targeted Brownfield Assessment requests that we should anticipate for this year? If you could provide the site and activity, that would be ideal.

Jennifer, thank you for the suggestion to connect with states about potential TBA projects on a regular basis. My plan is to request a little more time on Land Revitalization calls to discuss TBAs in quarters 1 and 3. The 4 state meetings are in quarters 2 and 4 so we can touch base then.

Thank you!

LisaDunning
